

The Jackson

The Jackson is Main Street as it should be: no graffiti or run down factories, just clean structures with colored awnings, red brick walls, and hanging outside lamps. Jackson also hosts the faux columns, but these have modern design – white cement columns accented with small trees and shrubs.

The stats:

- 7527 total square feet
- Three long suites in the middle, about 1500 square feet each
- Six suites on either side, ranging from about 462 to about 600 square feet
- Includes a restroom at the center suite
